LASH INTENSITY MASCARA

HERE ARE SOME TIPS TO HELP YOU USE THIS SPECIALLY-DESIGNED WAND...

- If you're using an eyelash curler, curl lashes before applying mascara to avoid damage to your eyelashes.
- If you're using Mary Kay's Lash Primer, apply it first to top & bottom lashes. Let it dry for at least one minute.
- Simply put your thumb over the "Mary Kay" printed on the wand handle.
- Use the shorter bristles to apply the product in a wiggling motion at the very base of the lashes.
- Rotate the wand to use the longer bristles to comb the product through the lashes from root to tip.
- Apply as many coats as you'd like, depending on how full and long you want your lashes to be. Allow 1-2 minutes between each coat.
- Remember to replace your mascara every 3-4 months.
- Remove all eye products every night!
